

REMARKS/ARGUMENTS

The amendment is in response to the Office Communication dated January 18, 2005. Claims 1-90 are pending.

In the prior Office Action dated May 20, 2004, among other things, the Examiner objected to the Specification because it contained bolded and underlined headings and subheadings, respectively. In the response dated August 8, 2004, Applicants amended, among other things, the Specification to correct the format by changing the format of the bolded and underlined text to plain formatting. In the most recent Office Communication, the Examiner indicated that Applicants' response filed on August 8, 2004 was not fully responsive because "[m]arkings were not included to show all changes relative to the immediate prior version of the specification."

In response to that Office Communication, Applicants respectfully submit the present supplemental amendment that includes markings to show the format changes to the headings and subheadings. Because no substantive changes to the Specification have been made, Applicants respectfully submit that no new matter has been introduced.

Applicants respectfully reassert the substantive arguments presented in their response dated August 8, 2004, which is herein incorporated by reference in its entirety. Based on those arguments, Applicants respectfully submit that claims 1-90 are allowable over the cited references.

Applicants respectfully request reconsideration and allowance of the claims as now presented. Applicant's attorney believes that this application is in condition for allowance.

Should any unresolved issues remain, Examiner is invited to call Applicant's attorney at the telephone number indicated below.

Respectfully submitted,
SAWYER LAW GROUP LLP
